*Re: ET Docket Nos. 04-186, 02-380 and 10-24; WT Docket Nos. 08-166 and 08-167*

Dear Ms. Dortch:

On September 9, 2010, Kerry Murray of Dell Inc., Paula Boyd of Microsoft Corp., and Edmond Thomas, Paul Margie, and Rob Carter of Wiltshire & Grannis LLP met with Commissioner Baker's Legal Advisor Charles Mathias. During this meeting, Dell and Microsoft reiterated their support for white spaces and thanked the Commission for moving forward to establish final rules for white space operations. The companies also reviewed several points previously made in recent ex parte letters filed by Dell and Microsoft, including the importance of removing the sensing requirement for geolocation-enabled white space devices, reducing the size of "keep out" zones for Part 74 wireless microphones, and treating unauthorized wireless microphones as Part 15 devices rather than broadcast licensees.

Pursuant to the Commission's rules, a copy of this notice is being filed electronically in the above-referenced dockets. If you require any additional information please contact the undersigned.

Sincerely yours,

*/s/ Paul Margie*
